

Suppl. Figure 1.

**Low-power EM micrograph
micrograph of the liver of
young control rat. 4,000 \times**

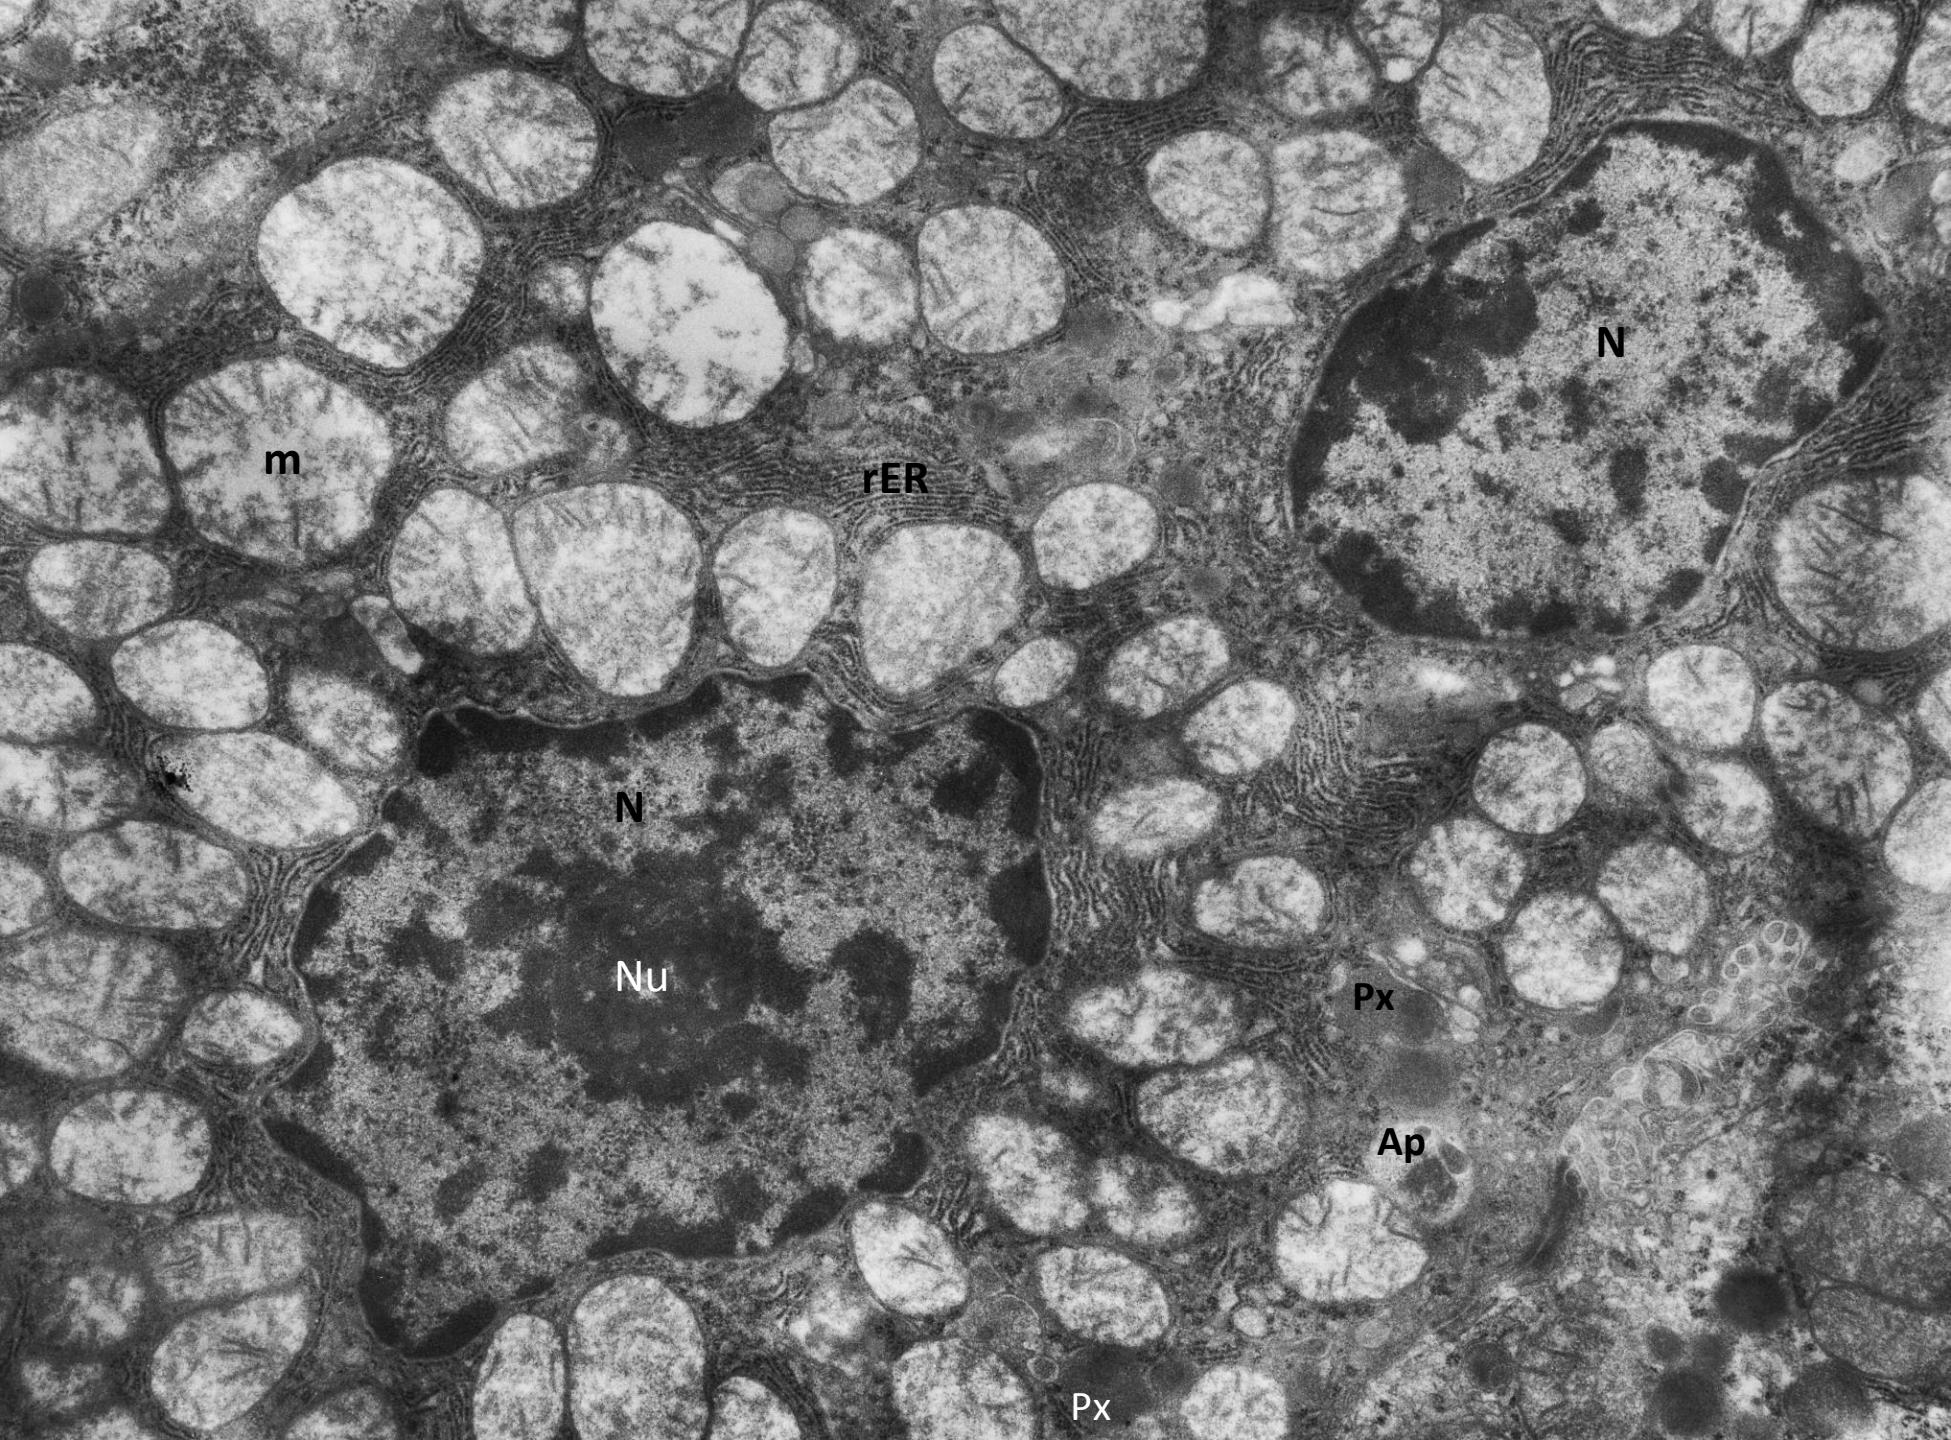

Abbreviations: *Ld*, lipid droplet; *Ly*,
lysosome; *m*, mitochondrion; *rER*,
rough endoplasmic reticulum

Suppl. Figure 2.

**Low-power EM micrograph
of the liver of young control
rat. 6,000 \times**

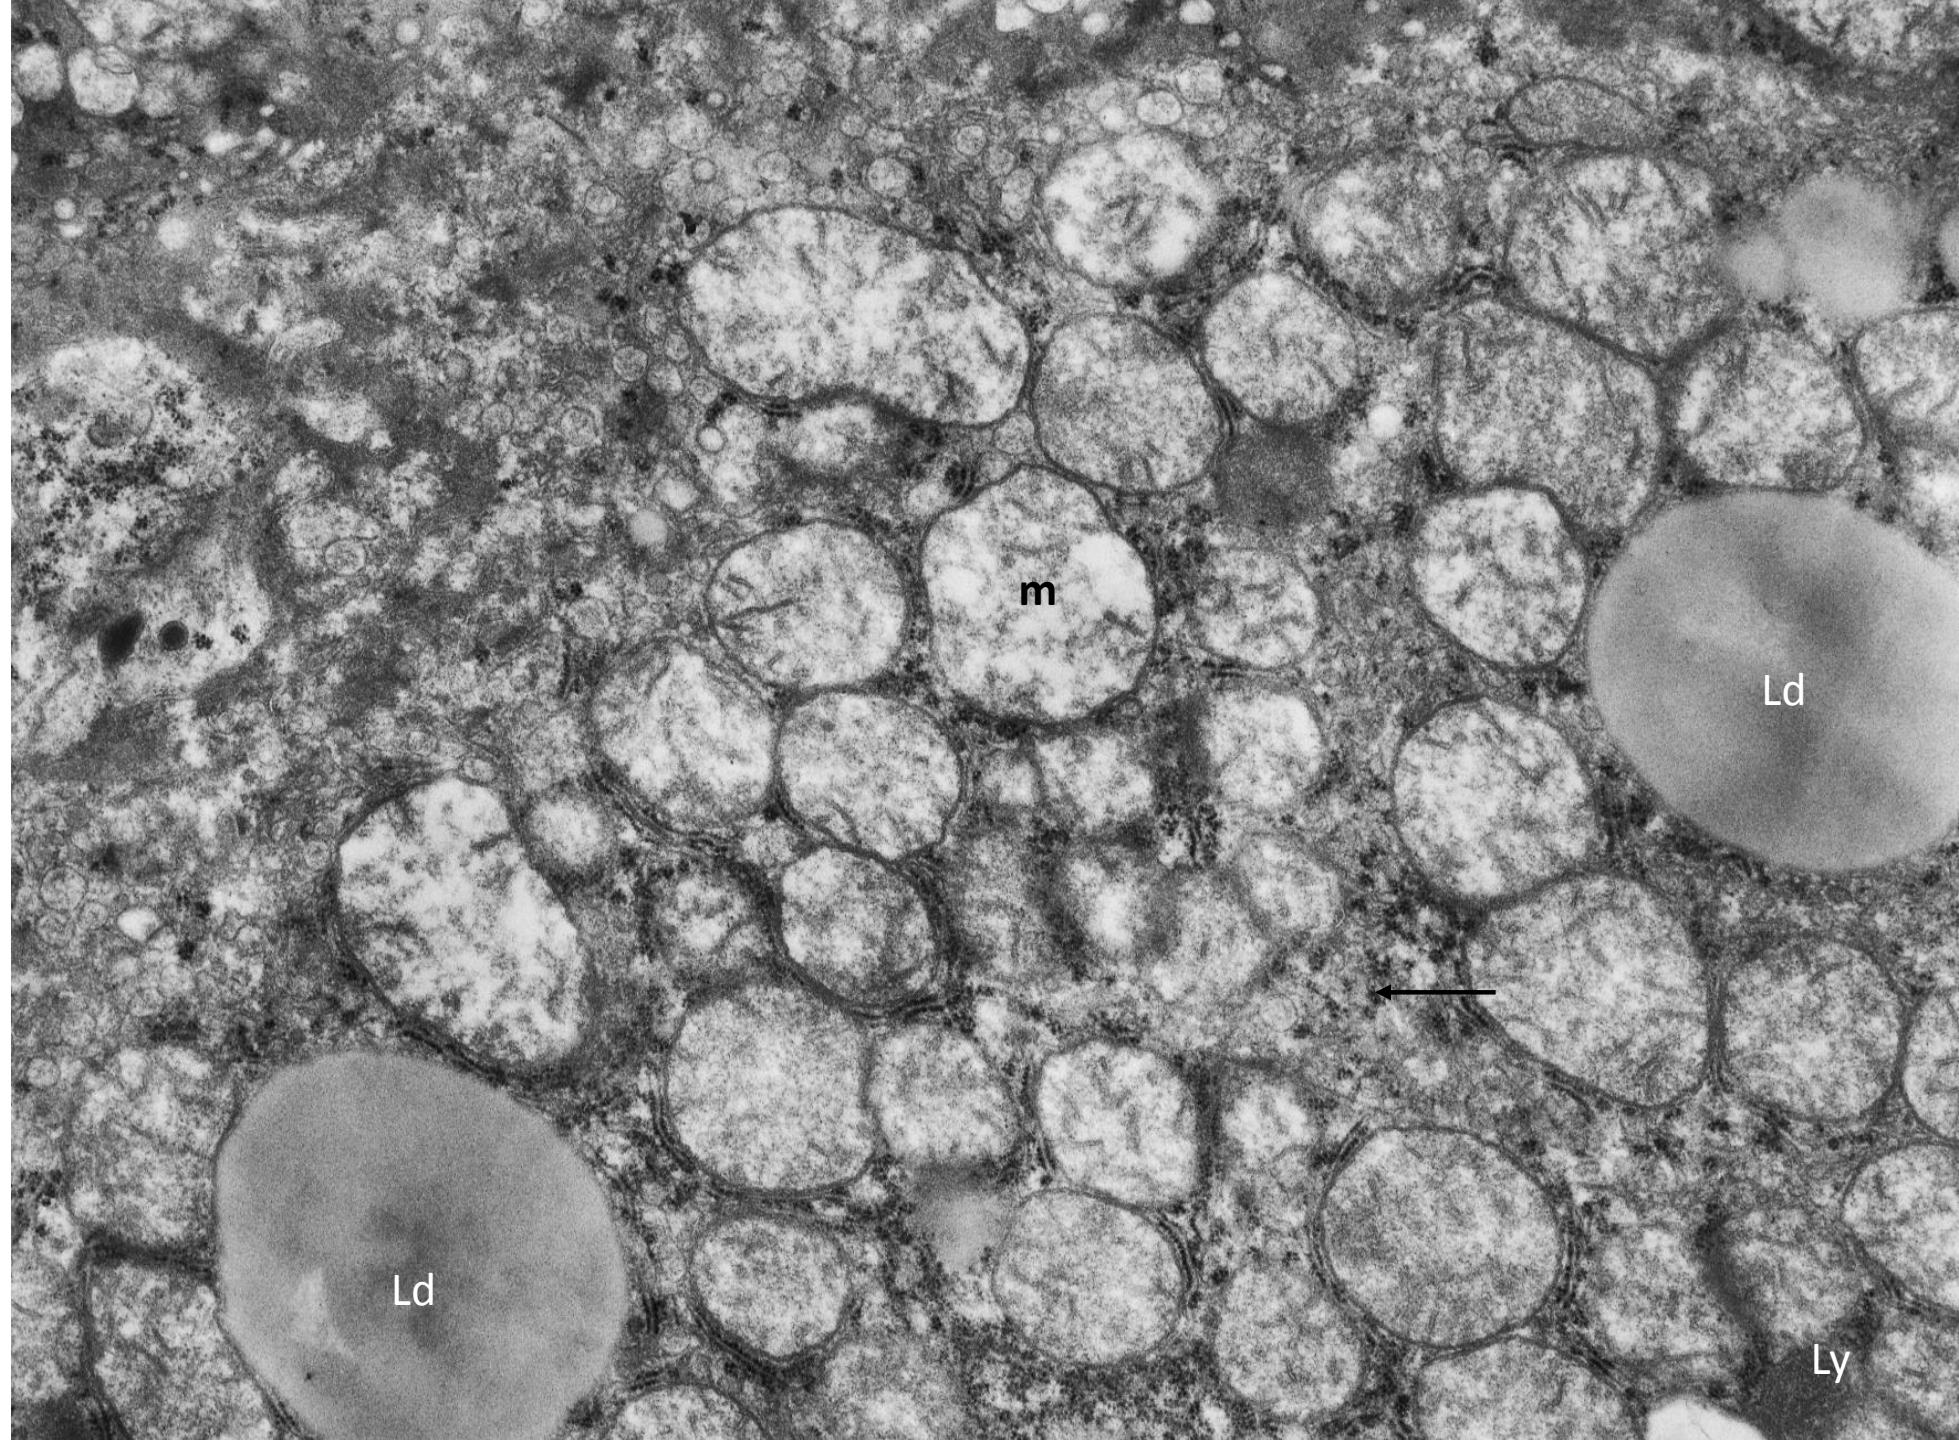

*Abbreviations: Ap, autophagosome;
m, mitochondrion; N, nucleus; Nu,
nucleolus; Px, peroxisome;
rER, rough endoplasmic reticulum*

Suppl. Figure 3.

**Low-power EM micrograph
of the liver of young control
rat. 7,500 \times**

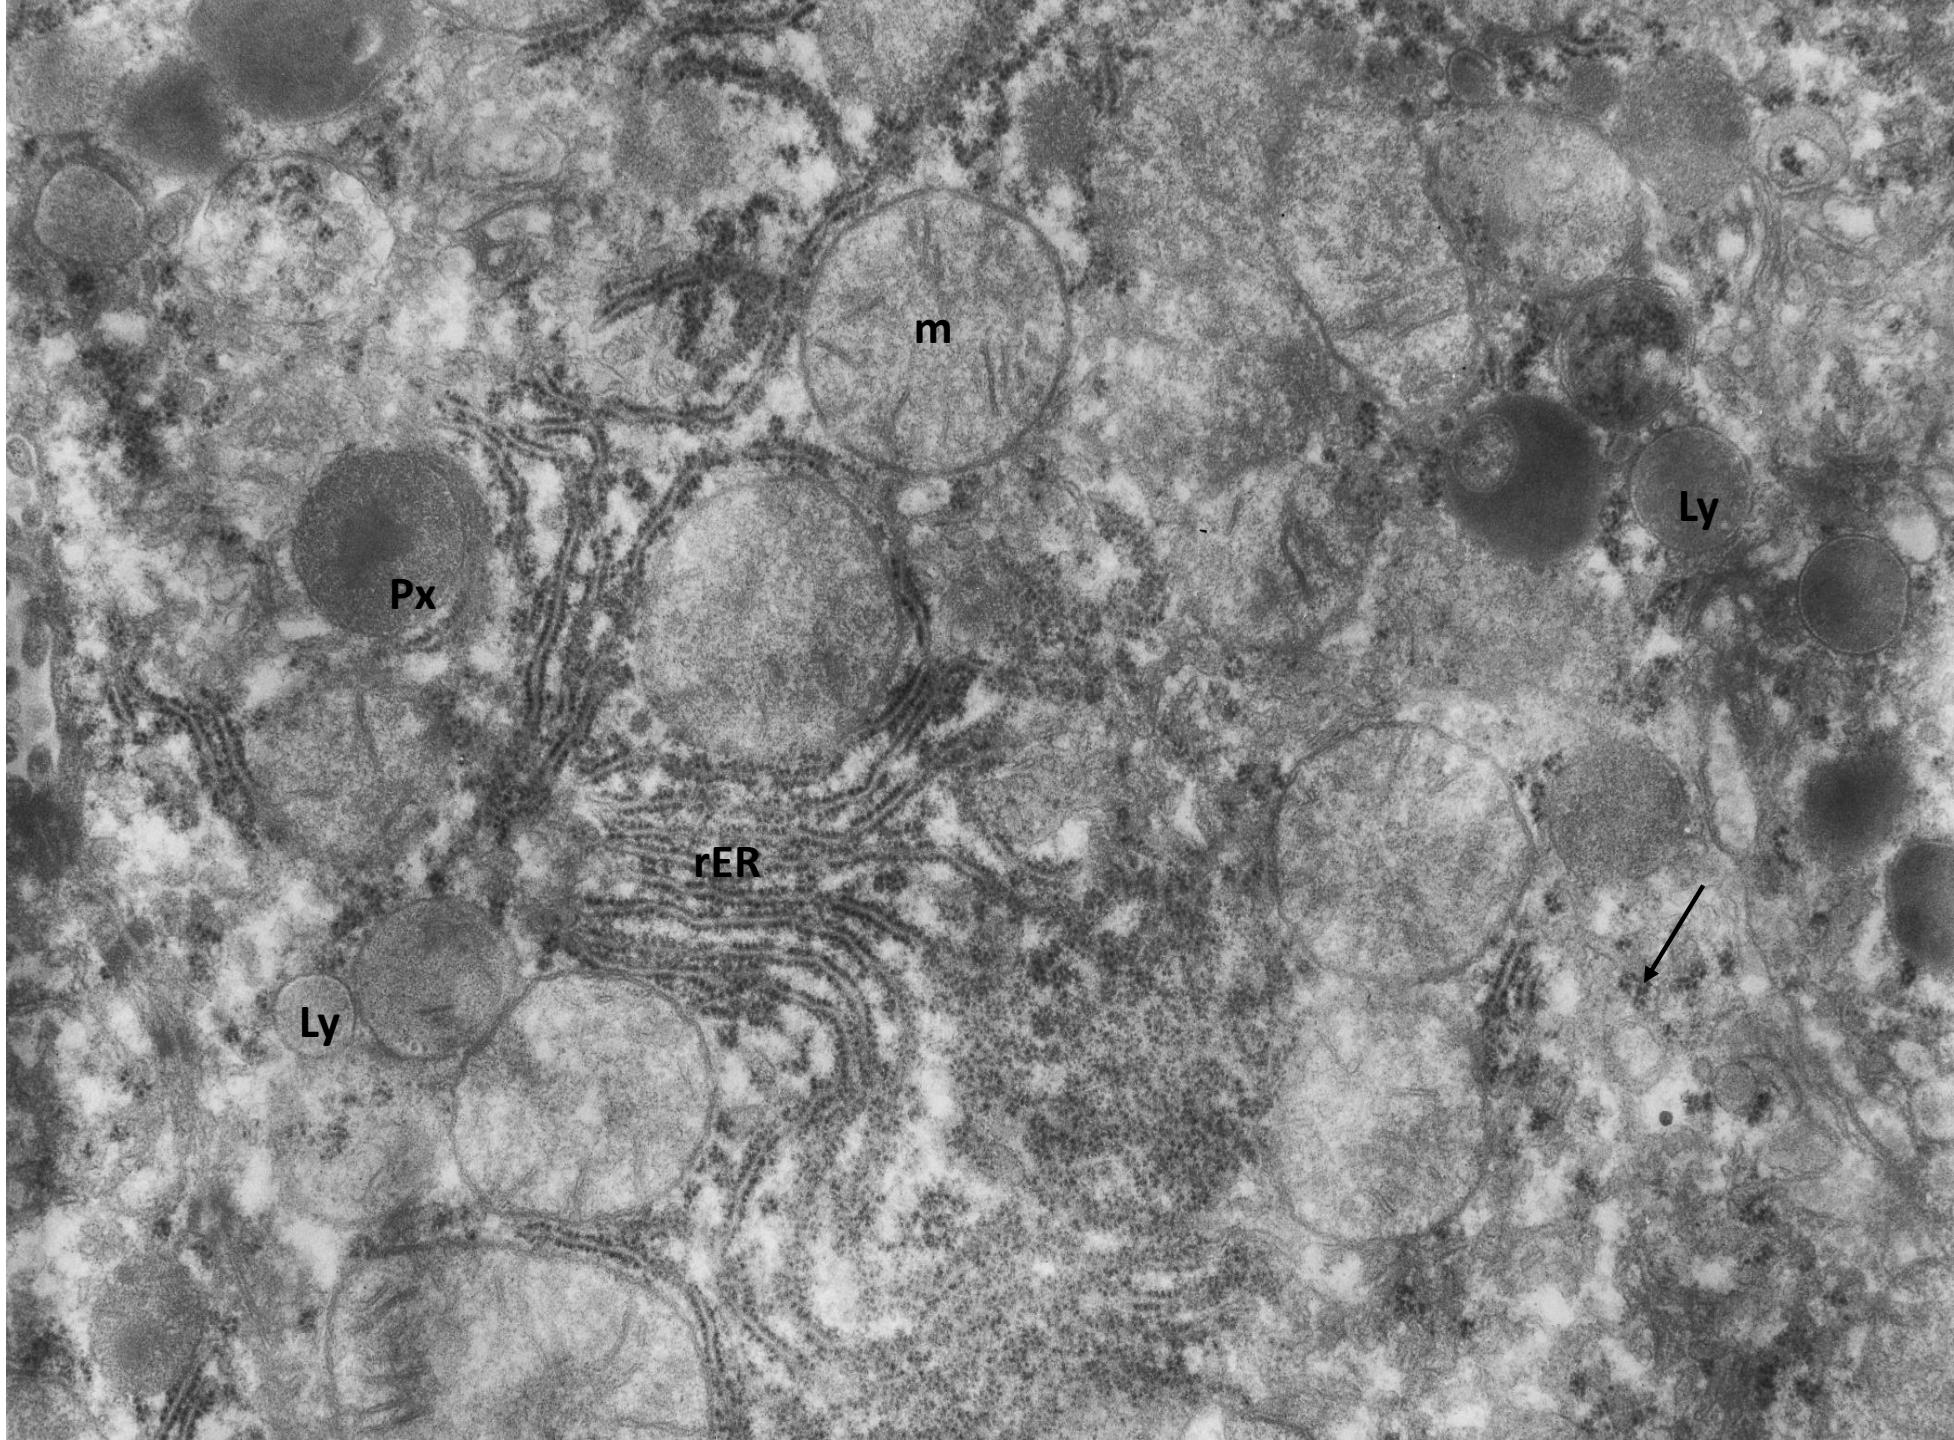

*Abbreviations: Ld, lipid droplet; Ly,
lysosome; m, mitochondrion; arrow,
glycogen*

Suppl. Figure 4.

**Low-power EM micrograph
of the liver of young control
rat. 10,000 \times**

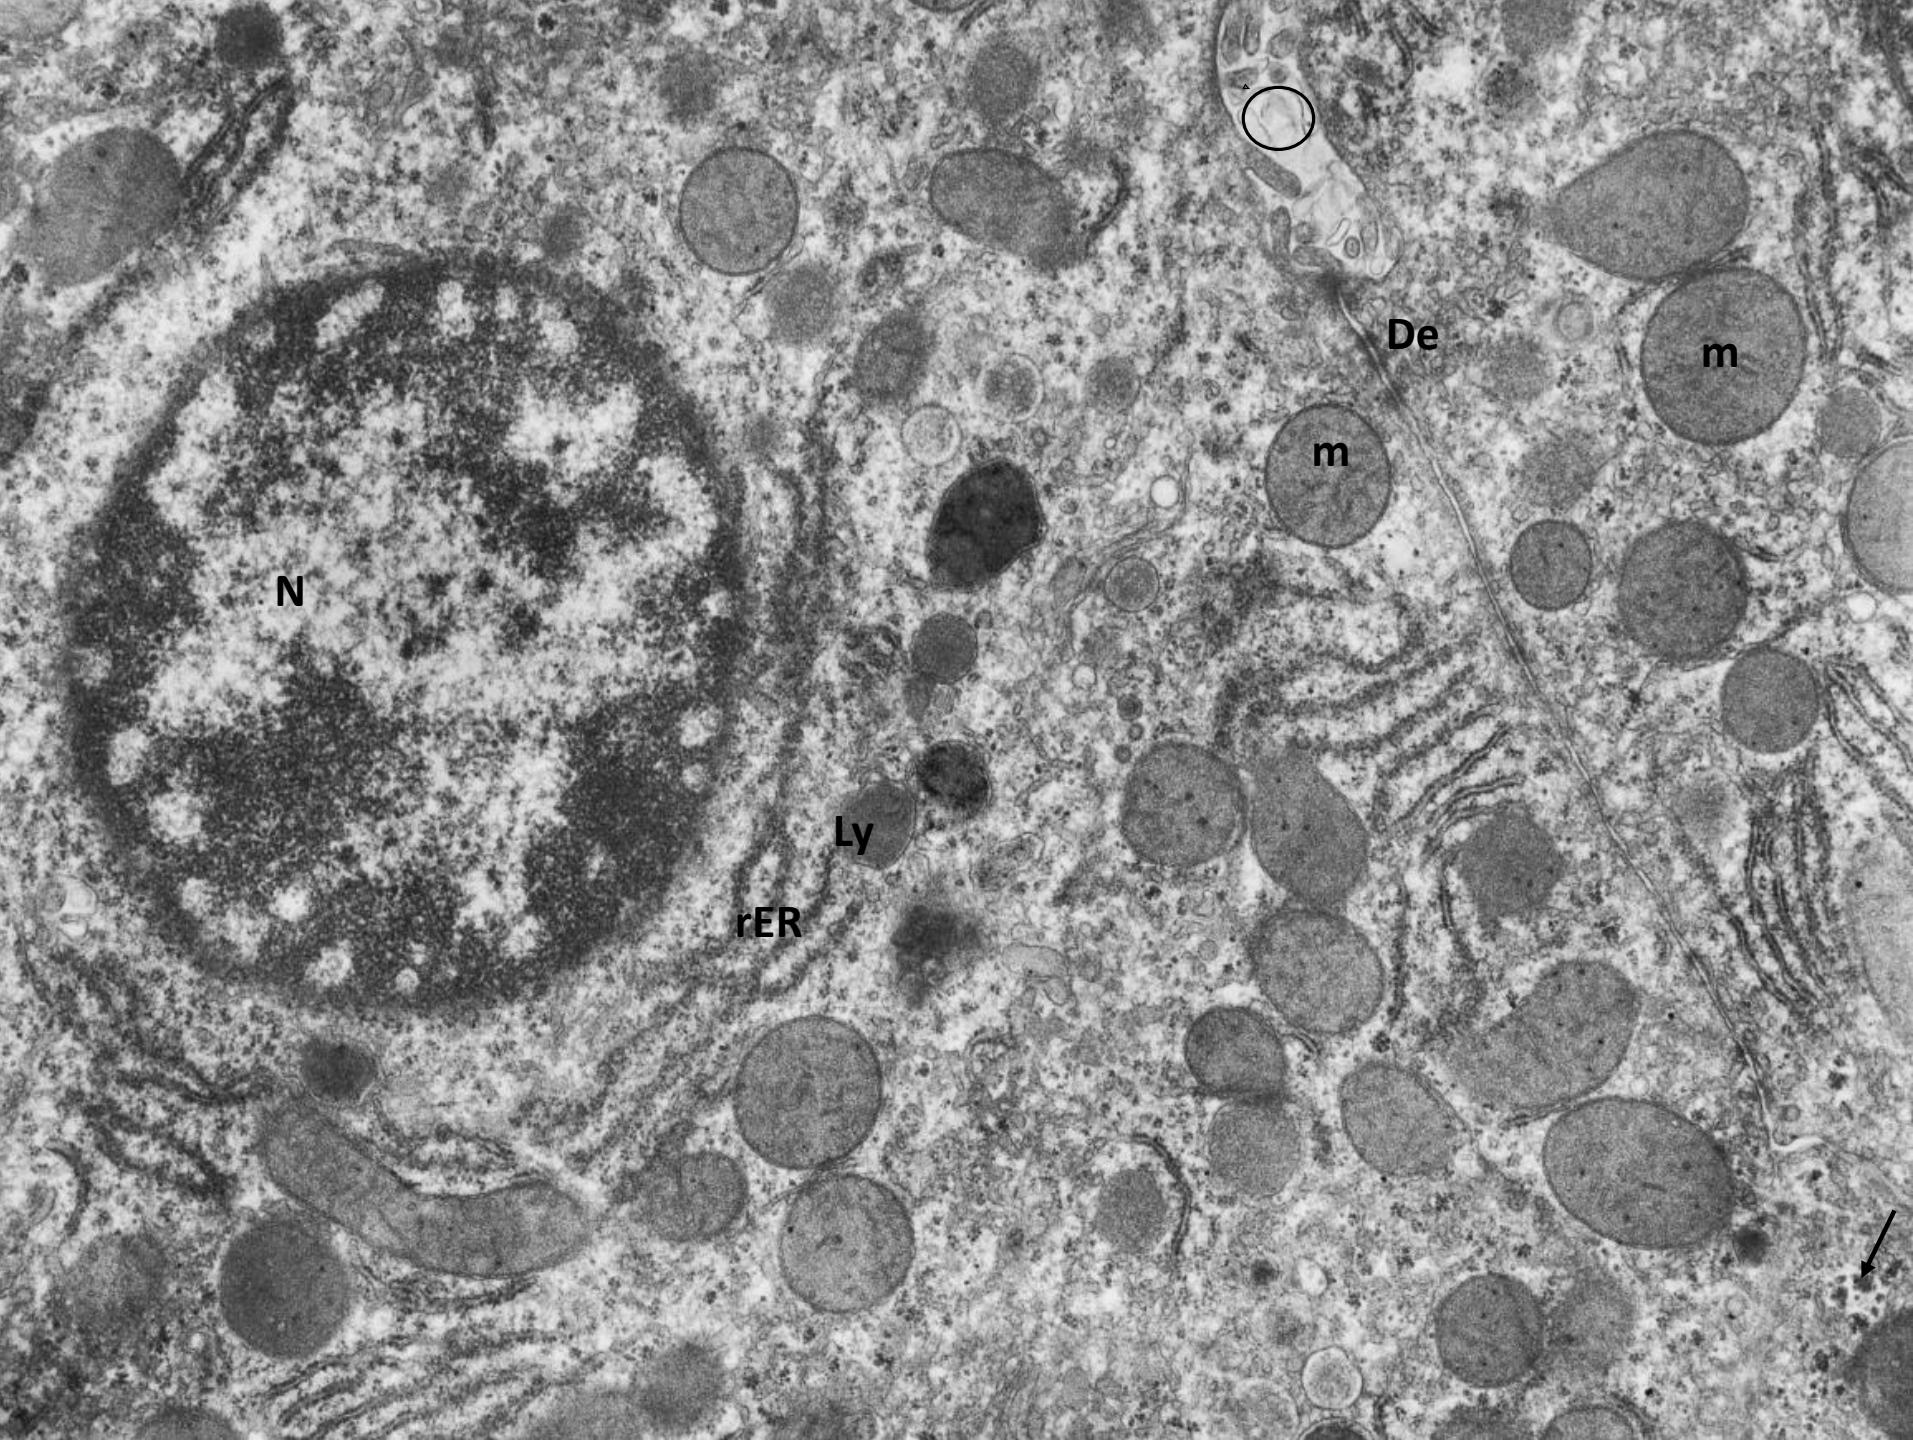

Abbreviations: *Ly*, lysosome; *m*,
mitochondrion; *Px*, peroxisome;
rER, rough endoplasmic reticulum;
arrow, glycogen rosettes

Suppl. Figure 5.

**Low-power EM micrograph
of the liver of old control rat.
7,500 \times**

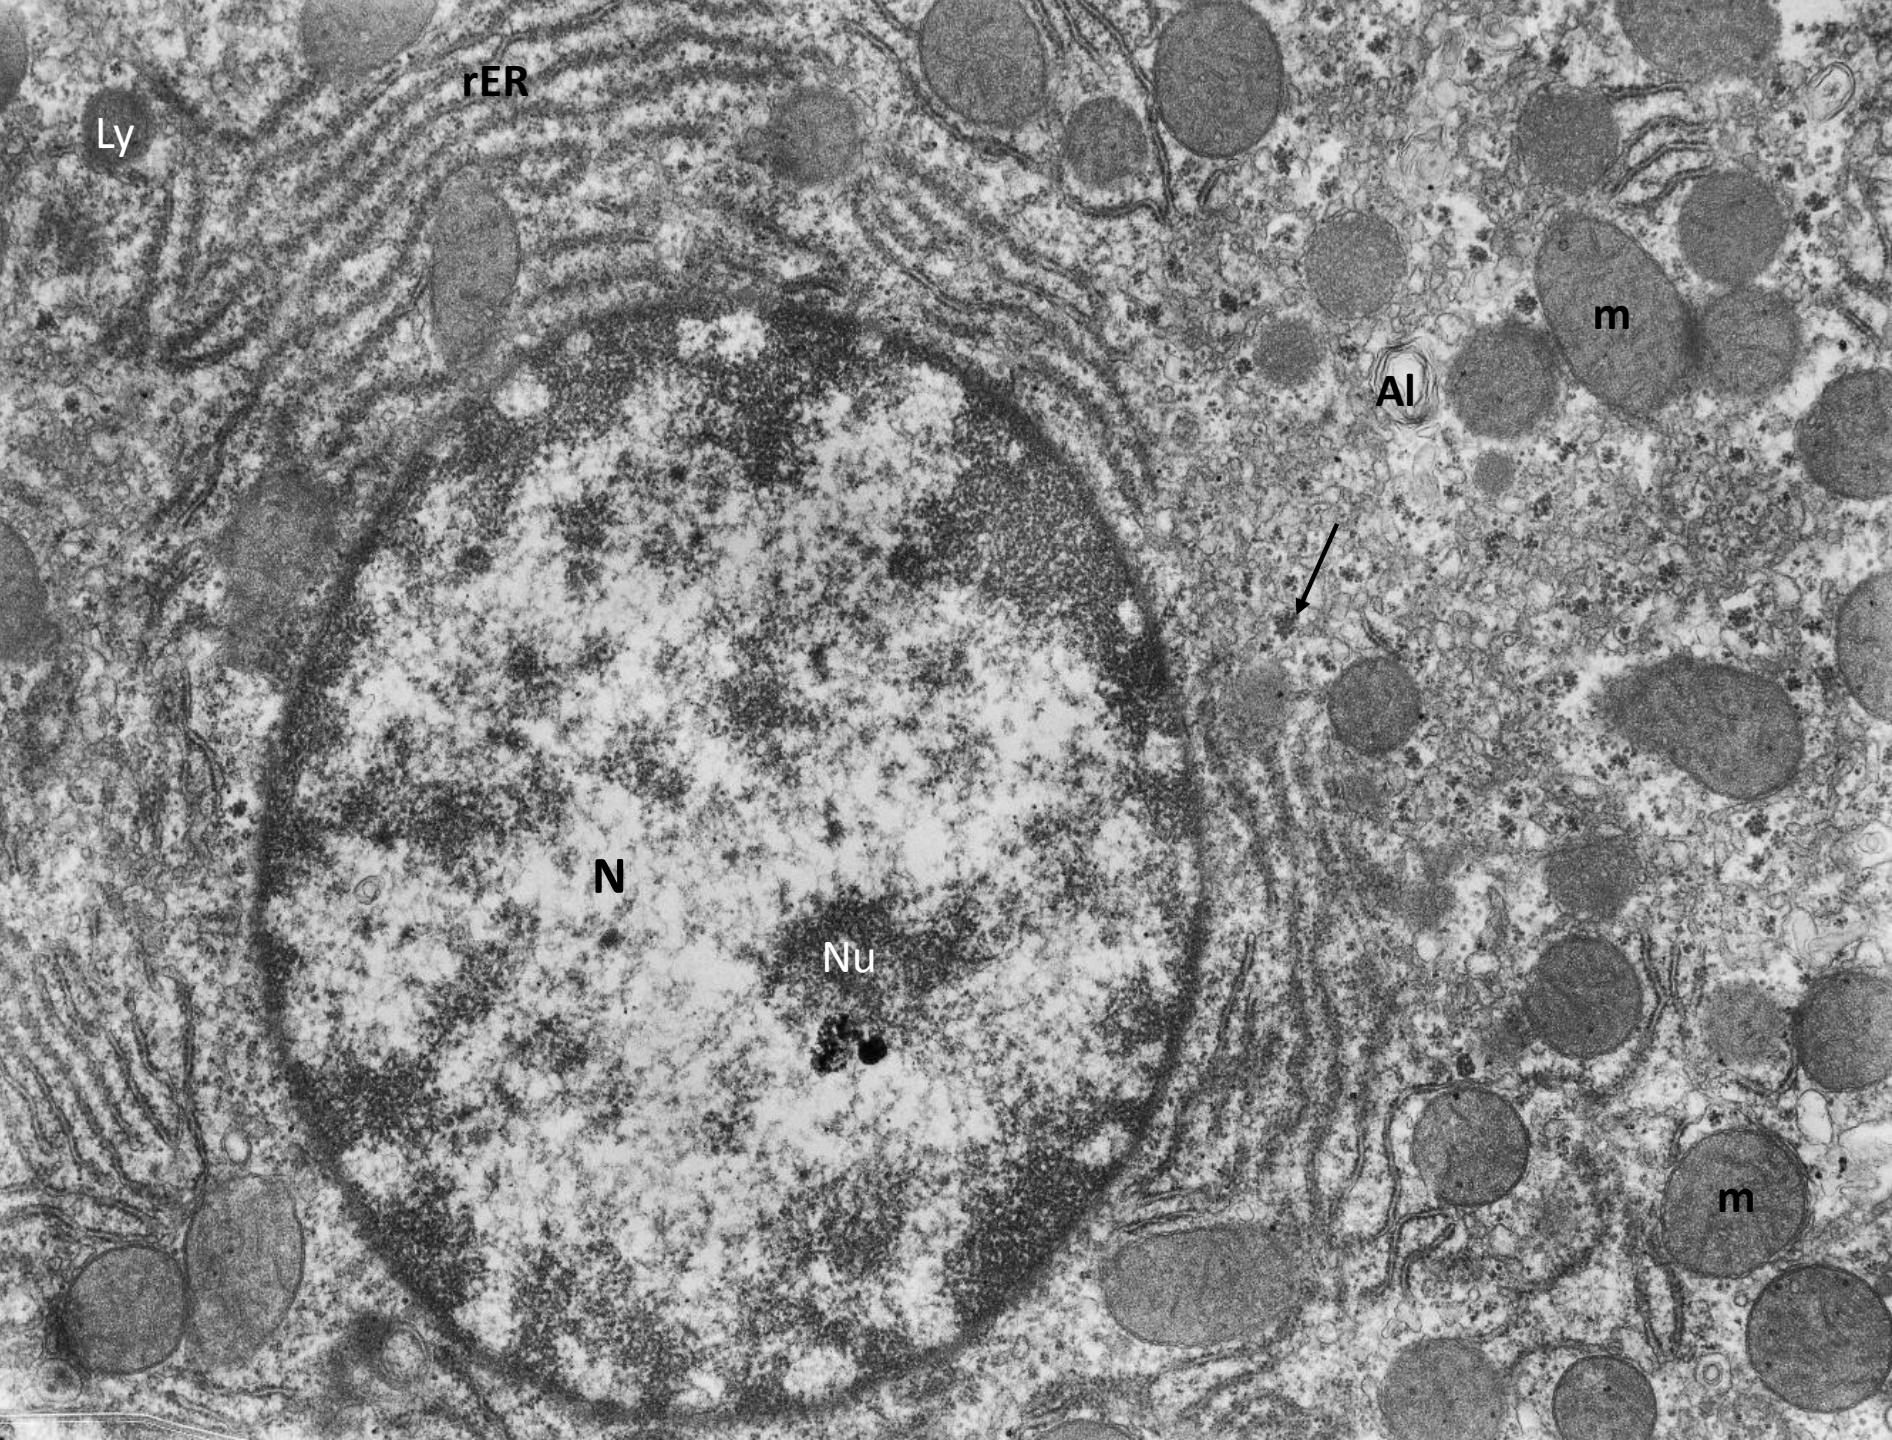

Abbreviations: *De*, desmosome; *Ly*, lysosome; *m*, mitochondrion; *N*, nucleus; *Px*, peroxisome; *rER*, rough endoplasmic reticulum; arrow, glycogen rosettes; circle, bile canaliculus

Suppl. Figure 6.

**Low-power EM micrograph
of the liver of old control rat.
7,500 \times**

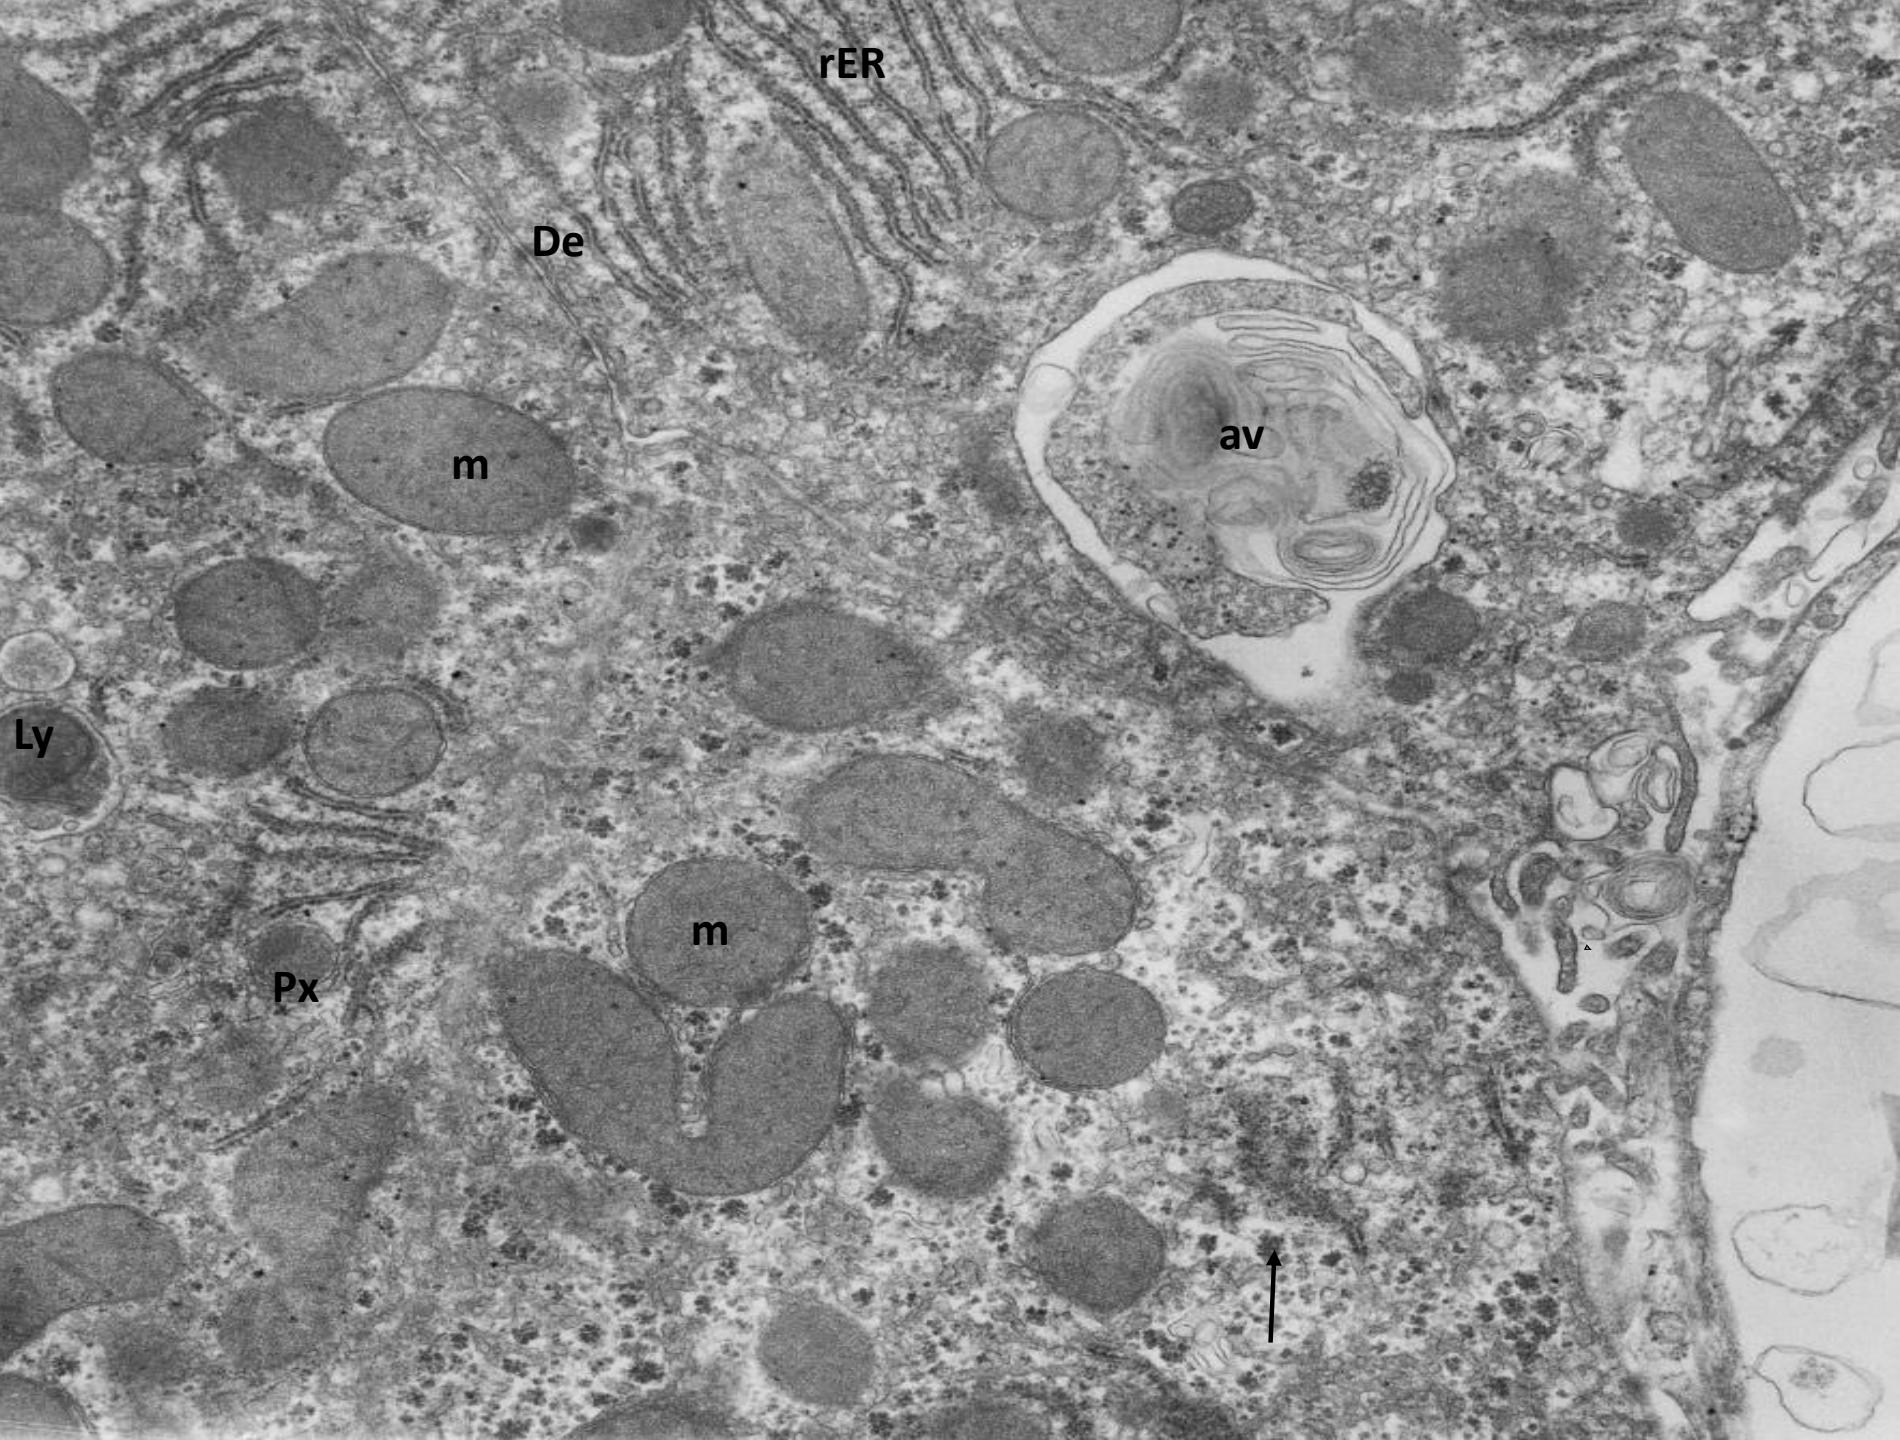

*Abbreviations: Al, autolysosome; Ly,
lysosome; m, mitochondrion; N,
nucleus; Nu, nucleolus; rER, rough
endoplasmic reticulum; arrow,
glycogen rosette*

Suppl. Figure 7.

**Low-power EM micrograph
of the liver of old control rat.
7,500 \times**

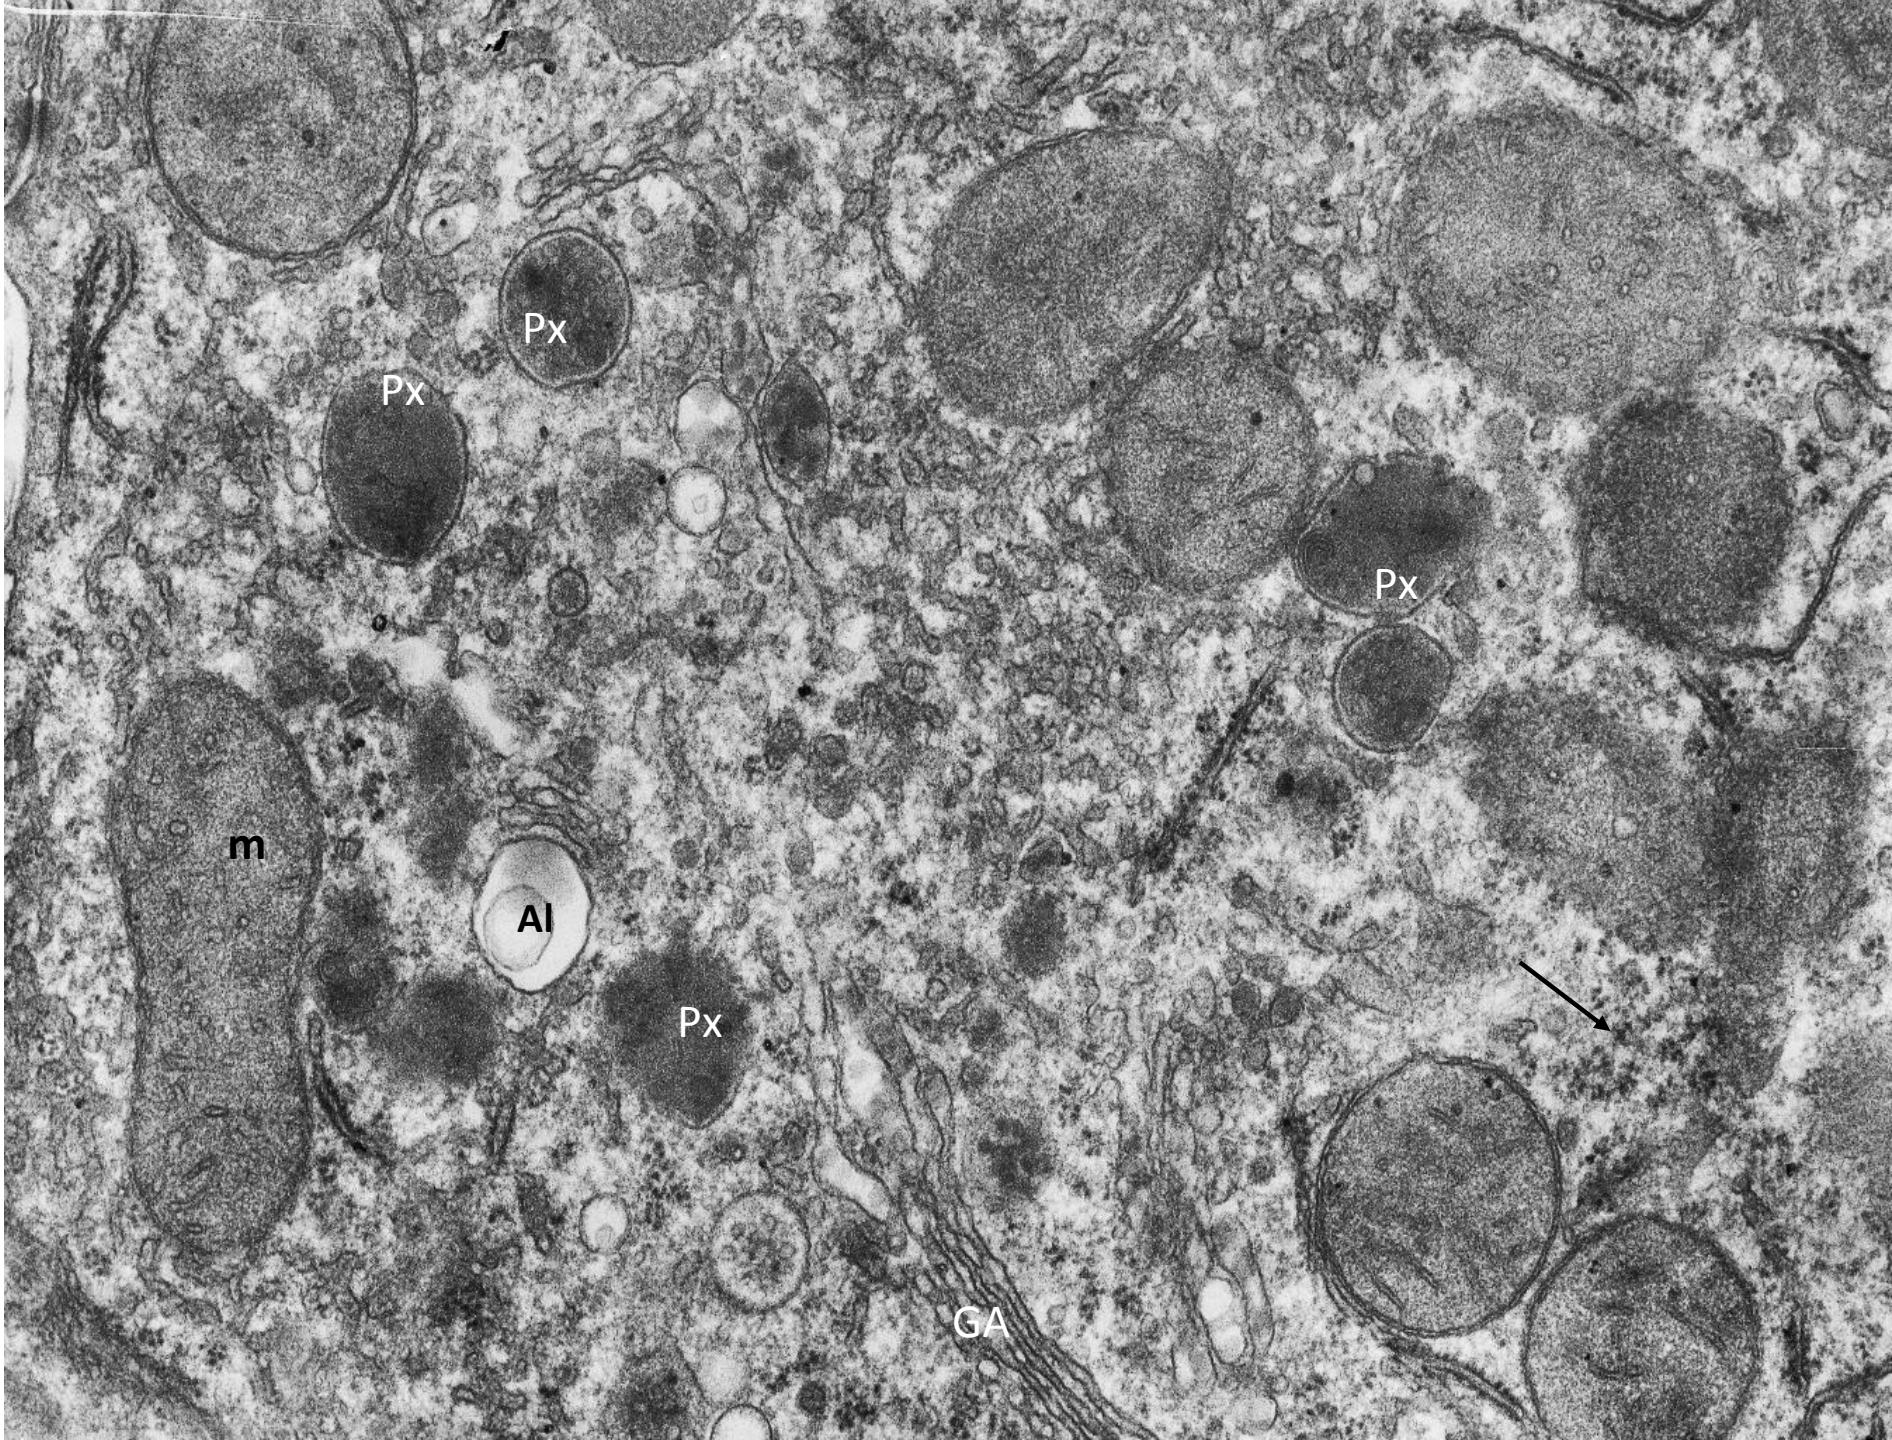

Abbreviations: av, autophagic vacuole; De, desmosome; Ly, lysosome; m, mitochondrion; Px, peroxisome; rER, rough endoplasmic reticulum; arrow, glycogen

Suppl. Figure 8.

**Low-power EM micrograph
of the liver of old control rat.
15,000 \times**

*Abbreviations: Al, autolysosome;
GA, Golgi apparatus; m,
mitochondrion; Px, peroxisome;
arrow, glycogen*

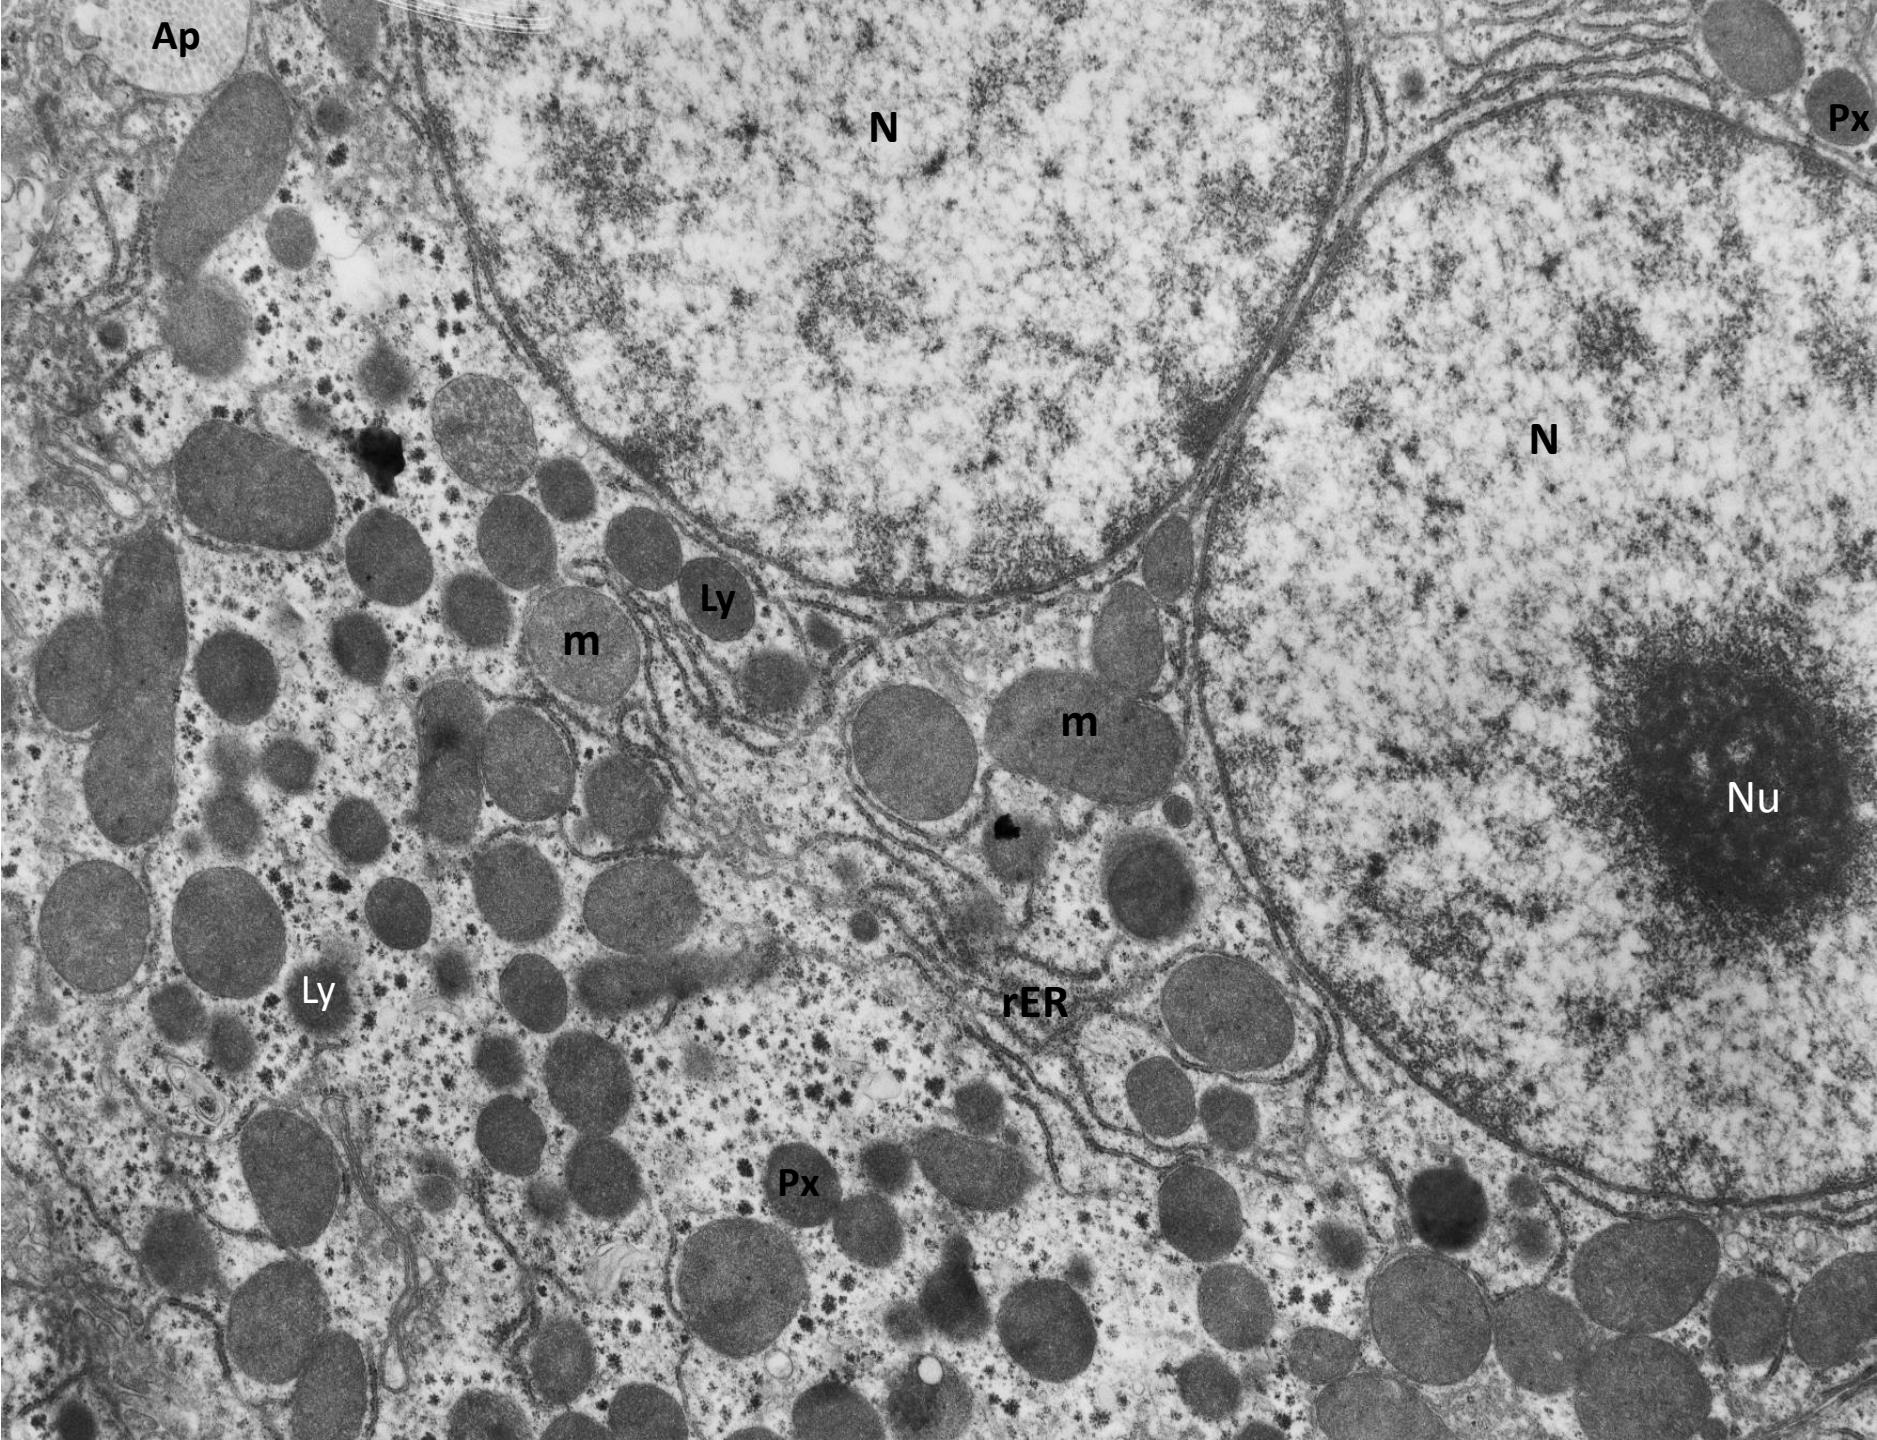

Suppl. Figure 9.

**Low-power EM micrograph
of the liver of young
fenofibrate-treated rat.
5,000 \times**

Abbreviations:

*Ap, autophagosome; Ly, lysosome;
m, mitochondrion; N, nucleus; Nu,
nucleolus; Px, peroxisome; rER,
rough endoplasmic reticulum*

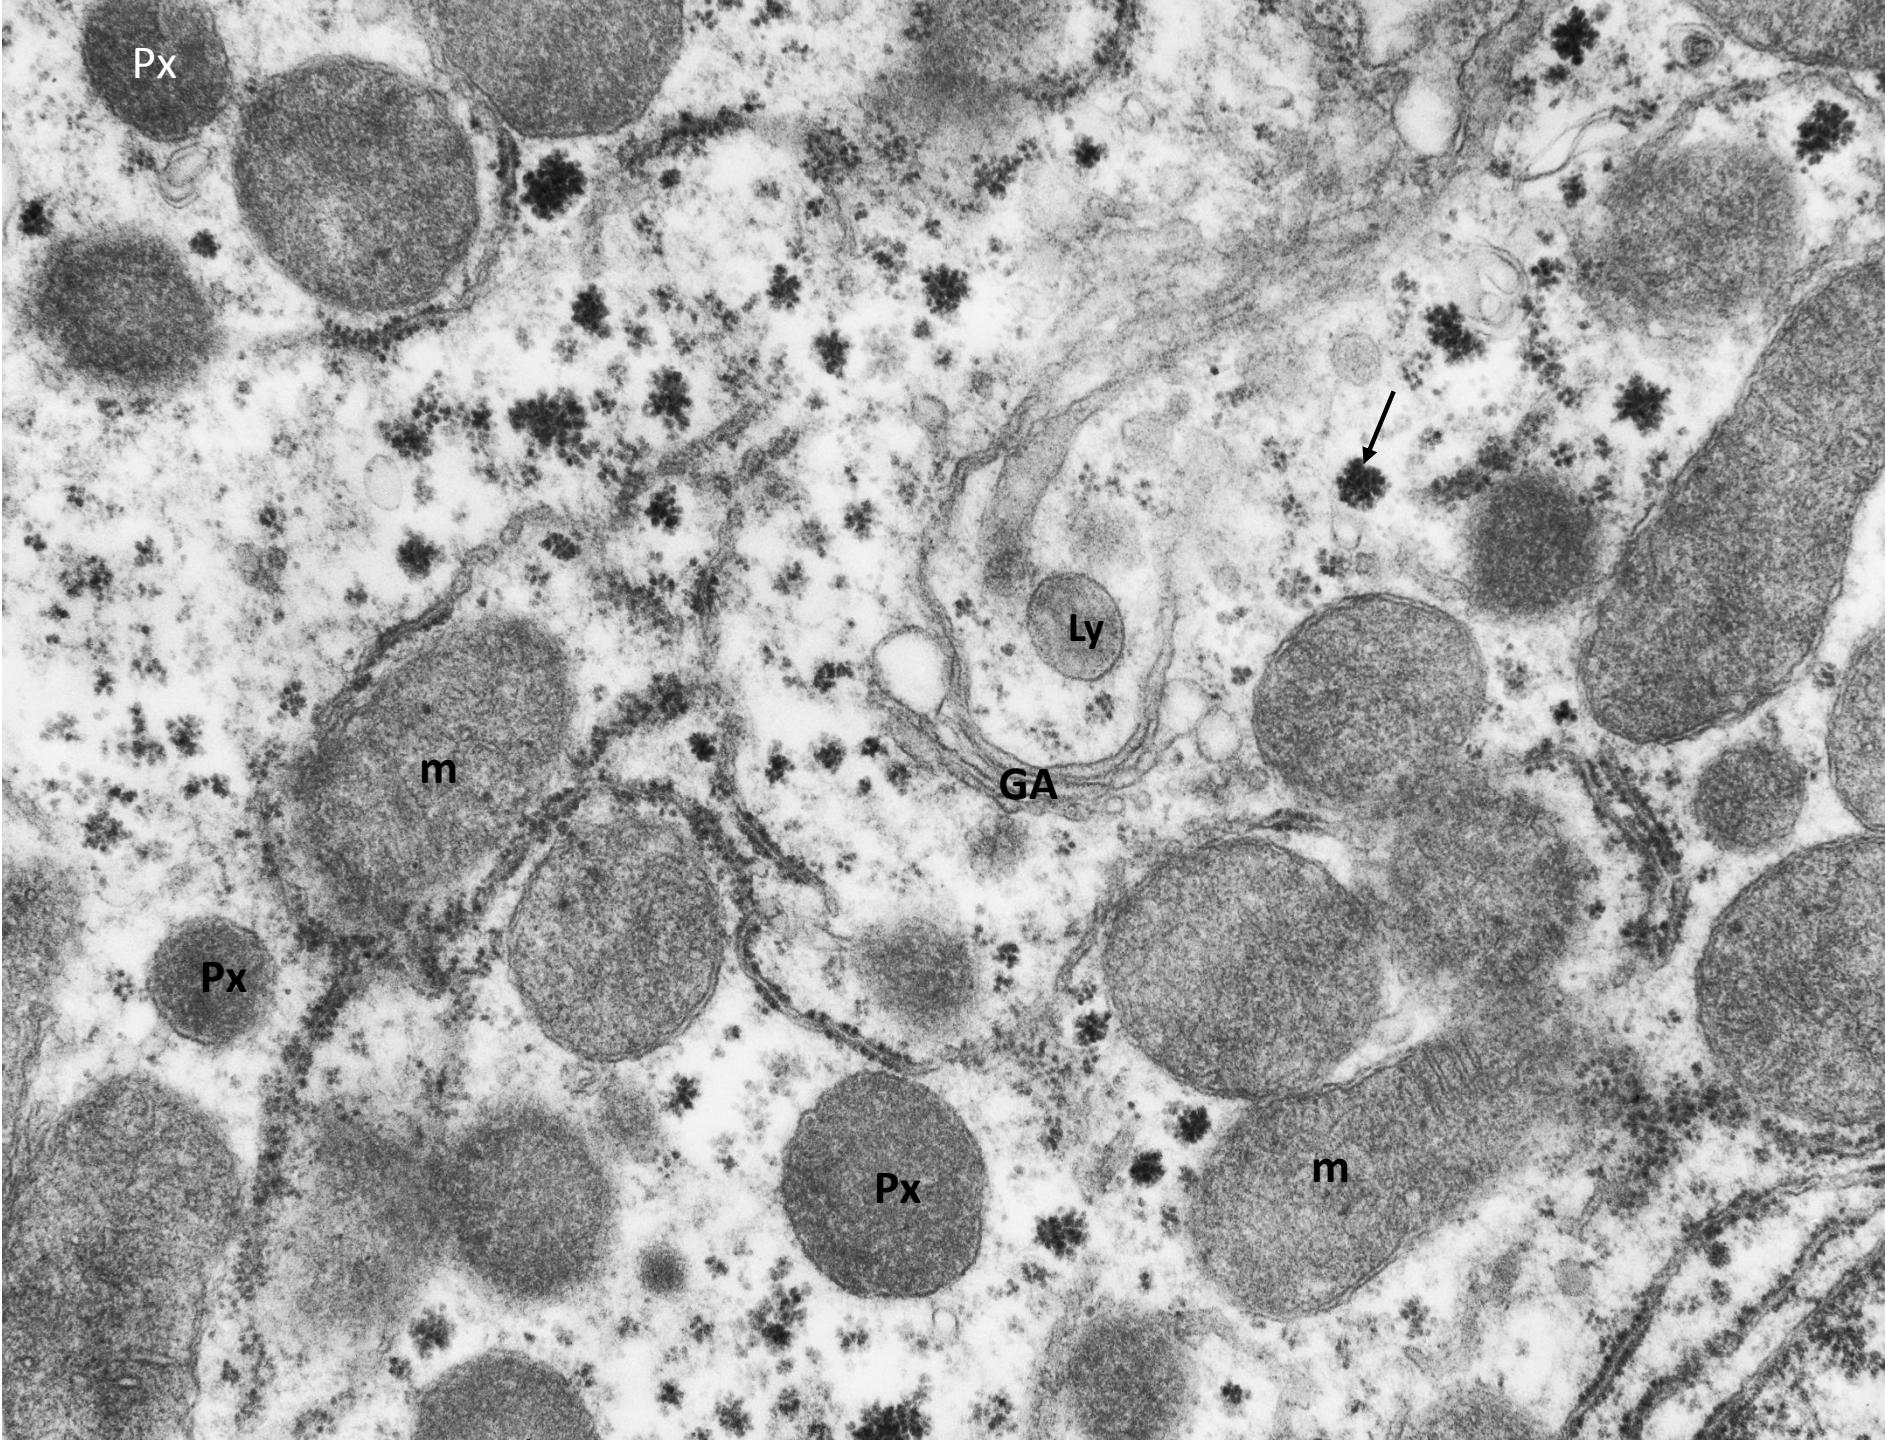

Suppl. Figure 10.

Low-power EM micrograph of the liver of young fenofibrate-treated rat. 15,000 \times

Abbreviations:

Al, autolysosome; GA, Golgi apparatus; Ly, lysosome; m, mitochondrion; Px, peroxisome; arrow, glycogen rosette

Suppl. Figure 11.

**Low-power EM micrograph
of the liver of old fenofibrate
rat. 5,000 \times**

Abbreviations:

*De, desmosome; Ld, lipid droplet;
Ly, lysosome; m, mitochondrion; N,
nucleus; Px, peroxisome; rER,
rough endoplasmic reticulum*
