SUBJECT: Letter of authorization
for project

JOSE GEOVANNI ROMERO QUINTANA, PhD

Full-time Professor and Researcher.
Faculty of Chemical and Biological Sciences, UAS.
PRESENT.

I hereby inform you that the research project entitled "**Association of genetic polymorphisms, quantification of cytokines, and expression of receptors *in situ* with the development of preeclampsia in pregnant women in Sinaloa**" has been authorized by the research ethics committee of the Hospital de la Mujer as well as by the steering and executive committee of this hospital to be carried out in our facilities.

This in order to continue with the process of conducting said project in this unit once the corresponding procedures with the other participating institutions have been completed.

Yours sincerely,
