

## Dear Authors and Readers,

*We present you with the 4<sup>th</sup>/2020 issue of Journal of Transfusion Medicine, which is also the 49<sup>th</sup> issue since the beginning of our editorial activity. It is also the 6<sup>th</sup> issue published in the bilingual formula.*

*We sincerely believe that the decision to publish all manuscripts in both Polish and English language versions which we have made in 2019 — together with the ViaMedica — has contributed to promoting the Journal of Transfusion Medicine on the international forum and winning the attention of a broader audience of healthcare professionals and scientific community.*

*We hope that the two-language formula has marked the beginning of a new chapter in our editorial activity. We also believe that more Authors will feel encouraged to make their contribution. We are looking forward to new submissions either in Polish or English. The manuscripts submitted in Polish will be translated into English by the Editors.*

*I would also like to extend a warm thank you to all the Authors, Reviewers and Editors for their time and effort invested in maintaining the high standard of our journal. Thank you all very much!*

*On behalf of the Editorial Board and myself, I would also like to wish you all the best for the coming Christmas and the New Year 2021. Let's hope it will be better than 2020!*

*Editor-in-Chief*

A handwritten signature in cursive script, appearing to read 'M. Łętowska'.

*Prof. dr hab. n. med. Magdalena Łętowska
