## Editorial Announcement – The Change of Publisher of the Polish Journal of Neurology and Neurosurgery (Neurologia i Neurochirurgia Polska)

### To Our Readership

The Editors of the Polish Journal of Neurology and Neurosurgery (PJNNS) with acceptance of the leadership of the Polish Neurological Society have decided to change the publisher of the PJNNS. This is the last issue of the Journal published by Elsevier. We are very grateful to the Elsevier administrative team for their support of the Journal in the last year since we became the new editors of the PJNNS. We would particularly like to thank Mr. Jaap Albertsma and Ms. Jeanette Bakker who served as the Journal Managers, and Ms. Justyna Kasprzycka who served as an Associate Publisher for Central and Eastern Europe. With Elsevier as the publishing house for the last few years, the Journal has enjoyed substantial increase of the Impact Factor<sup>TM</sup> and the Cite Score<sup>TM</sup> [1]. Our new publishing house will be Via Medica. We apologize to our authors for any inconvenience resulting from this change of publishers and in particular to those authors who have their manuscripts in the processing stage. As editors we will do whatever is possible to reduce the burden placed on our

authors. We are looking forward to our collaboration with Via Medica. The new website submission link is: [journals.viamedica.pl/neurologia\\_neurochirurgia\\_polska](http://journals.viamedica.pl/neurologia_neurochirurgia_polska)
