COVER LETTER

Dear Sirs,

I would like to submit the article entitled: "Secondary prevention and treatment of cervical cancer– update from Poland" by Marcin Śniadecki, Michał Brzeziński, Dagmara Klasa Mazurkiewicz, Grzegorz Panek and Patryk Poniewierza for consideration for publication in the NOWOTWORY Journal of Oncology as an original article.

The subject matter covered coincides with the journal's area of interest.

This article summarises the results of our study to assess the effects of a Polish cervical cancer prevention and treatment programme conducted with public funds in economic and epidemiological terms.

The findings presented in this article provide valuable material for ongoing debates on prevention programmes and treatment effectiveness in developing countries.

In addition, they can be a source of knowledge for government agencies and NGOs when planning the spending of national and aid budgets around the world.

Yours faithfully

P Poniewierza
