

Invitation letter for the Eight International Congress of the Croatian Society of Nuclear Medicine

Dear Colleagues,

It is my great pleasure to invite you to the Eight International Congress of the Croatian Society of Nuclear Medicine, May 09–12, 2014, which will take place in beautiful Šibenik — a historic town, located in central Dalmatia where the river Krka flows into the Adriatic Sea. This is a very special occasion since 2014 we are celebrating 20th anniversary of our first congress which took place in Zagreb 1994.

Since that time we have witnessed many important developments in the field of nuclear medicine and molecular imaging. During the past seven congresses a number of eminent lecturers went through our lectures rooms giving the chance to the international audience to be informed about the progress in our field.

Our next congress will be the perfect opportunity to meet again many of the world experts and to present our own achievements in the form of oral or poster presentations.

We shall continue our praxis of Continuing Medical Education (CME) which will be credited by the EACCME and by the Croatian Medical Chamber.

We are particularly glad to announce the 10th Alpe-Adria Nuclear Medicine Symposium organized by the Austrian, Italian, Slovenian and Croatian Nuclear Medicine Societies which will be held on the same venue, on Sunday, May 11. This Symposium will confirm a high level of collaboration among our Societies.

Simultaneously with the main program, the Annual Meeting of the Croatian Society of Nuclear Medicine Technologists will be held on May 10–12, 2014. All aspects of nuclear medicine diagnostics and therapy, as seen by technologists, will be considered.

Don't miss the opportunity to explore Šibenik and several national parks in the neighborhood. Joining our social events you will have a chance to meet you colleagues in person and discuss with them the most interesting topics of nuclear medicine.

Croatia is one of the most beautiful countries in Europe and we shall do our best to offer you a very pleasant stay and make you feel at home while being with us.

We cordially invite you and look forward to seeing you in Šibenik in May 2014!

*Prof. Dražen Huić, MD, PhD
Congress President*
