

COVER LETTER

Submission date: 25/01/2023

Address to:

Editor-in-Chief,
Oncology in Clinical Practise

Dear Editor,

We are pleased to submit our manuscript entitled: "Hypopituitarism as a rare complication of lung cancer immunotherapy – case report", for consideration as a clinical vignette. The article describes a rare complication of a novel type of cancer treatment, which underline a need of cooperation between oncologists and endocrinologists. We hope that this manuscript will help other oncologists to deal with such situations as the combination of hypopituitarism and cancer-dependent symptoms.

This manuscript has not been previously published and is not under consideration in the same or substantially similar form in any other peer-reviewed media.

Sincerely,

Corresponding author
