**Video S1.** Five chamber view with color Doppler flow. Large lateral wall aneurysm with a fistula below mitral annular. Mild neo-aortic valve regurgitation

**Video S2.** Five chamber view. Two dimensional echocardiography. Large lateral wall aneurysm

**Video S3.** Five chamber view with color Doppler flow. Large lateral wall aneurysm with two fistulae providing inflow and outflow from the aneurysm

**Video S4.** Left ventricular lateral wall view with occluded aneurysm and normal contractility of the myocardium
