Table S1. Median of foramen ovale (FO) index and interquartile range during gestation

| Weeks of gestation | Number of cases | FO index | | | | | |
|--------------------|-----------------|----------|---------|---------|----------------|----------------|---------------------|
| | | Median | Minimum | Maximum | Lower quartile | Upper quartile | Interquartile range |
| 24–27 | 20 | 29.5 | 19 | 34 | 23 | 32 | 9 |
| 28–31 | 17 | 28 | 20 | 33 | 24 | 30 | 6 |
| 32–35 | 16 | 27.5 | 20 | 32 | 25 | 30 | 5 |
| 36–39 | 13 | 28 | 18 | 30 | 20 | 30 | 10 |
