Table S1. Patient demographics

Patient	Age (years)	Stage	Histology	Gleason Score	ADT	VMAT EBRT	EBRT Treatment Start Date
1	63	Not available	High risk prostate adenocarcinoma	4+4	Yes	Yes	31/10/2018
2	79	T2	High risk prostate adenocarcinoma	4+4	Yes	Yes	10/05/2019
3	73	T3aN1M0	High risk prostate adenocarcinoma	4+4	Yes	Yes	16/05/2019
4	79	T2c	High risk prostate adenocarcinoma	3+4	Yes	Yes	03/05/2019
5	78	T4N0M0	High risk prostate adenocarcinoma	4+3	Yes	Yes	07/06/2019
6	70	T3N0M0	High risk prostate adenocarcinoma	4+3	Yes	Yes	17/06/2019
7	80	T2N0M0	High risk prostate adenocarcinoma	3+4	Yes	Yes	25/06/2019
8	68	T1c	Intermediate risk prostate adenocarcinoma	4+3	Yes	Yes	27/06/2019
9	85	T2N0M0	High risk prostate adenocarcinoma	4+4	Yes	Yes	01/07/2019
10	78	T3aN0M0	High risk prostate adenocarcinoma	4+3	Yes	Yes	25/07/2019
Mean \pm SD	78 \pm 6.29						

Table S2. Clinical experience of radiation oncologists

RO	Designation	Years of Clinical Experience
Dr A	Associate Consultant	6 years
Dr B	Senior Consultant	20 years
Dr C	Consultant	6 years
Dr D	Senior Consultant	33 years
Dr E	Consultant	6 years

Table S3. Schedule of contouring tasks

Contouring	Start Date	End Date	Remarks
CT alone Round 1	5/8/19	16/8/19	1 week break before contouring CT/TPUS Round 1, 2 months in-between before contouring CT alone Round 2
CT/TPUS Round 1	26/8/19	6/9/19	2 months in-between before contouring CT/TPUS Round 2
CT alone Round 2	7/10/19	18/10/19	1 week break before contouring CT/TPUS Round 2
CT/TPUS Round 2	28/10/19	8/11/19	

Table S4A: Median centroid position in L/R (x), A/P (y) and S/I (z) directions for each patient as derived from the delineation of the five ROs in CT-alone image sets

CT-alone Centroid [cm]																		
x							y						z
